CREATING EMOTIONS

## Brazil Sensations a 100% green DMC

Brazil Sensations is the first Brazilian DMC to engage itself in the carbon offset of its activities.

Besides our daily gestures to minimize our impact to our planet, Brazil Sensations decided not only to be ecological and socially sustainable, but as well to reinforce the regenerative tourism.

Following a long expertise by Agroforestry Carbon, our CO2 emissions are compensated in the form of contribution to certified projects in Brazil.

In line with the UN's Sustainable Development Goals (SDGs), our actions are concentrated in reforestation, preserving forests and its biodiversity as well as renewable energy sources whilst assuring the protection of vulnerable local populations.

These days, it has become difficult to ignore the impact that our tourism projects in Brazil can have to the environment. It is in this context that Brazil Sensations offers the possibility of a solution to every project such as to propose a carbon compensation of each and every journey to our beloved country.

## BUZIOS

Búzios was a small fishing village before Brigitte Bardot frequented the place in the 1960s. Since then, Búzios has become synonymous with fashion, harmony, charm, and Brazilian sophistication. Located 2.5 hours from Rio de Janeiro, Búzios is highly appreciated for its 26 beaches, each with its own style. For example, Geribá is bustling with numerous guesthouses, while Tartaruga is distinctly more wild. Búzios is also renowned for its nightlife, with restaurants and shops staying open late into the evening, along with bars and nightclubs, especially during holidays and weekends.
