CREATING EMOTIONS

Brazil Sensations a 100% green DMC

Brazil Sensations is the first Brazilian DMC to engage itself in the carbon offset of its activities.

Besides our daily gestures to minimize our impact to our planet, Brazil Sensations decided not only to be ecological and socially sustainable, but as well to reinforce the regenerative tourism.

Following a long expertise by Agroforestry Carbon, our CO2 emissions are compensated in the form of contribution to certified projects in Brazil.

In line with the UN's Sustainable Development Goals (SDGs), our actions are concentrated in reforestation, preserving forests and its biodiversity as well as renewable energy sources whilst assuring the protection of vulnerable local populations.

These days, it has become difficult to ignore the impact that our tourism projects in Brazil can have to the environment. It is in this context that Brazil Sensations offers the possibility of a solution to every project such as to propose a carbon compensation of each and every journey to our beloved country.

ENVIRONMENTAL IMPACT

- Recovery of degraded zones
- Increase in biological carbon sequestration
- Increase in the quality of the soil
- Source water protection
- Increase in biodiversity
- Increase in the area 's productivity

SOCIAL IMPACT

- Diversification of cultures and productions
- Generation of a resilient economy
- Assuring food security
- Reinforcement of local productions
- Foods with higher nutritional value
- Better quality of life to farmers

IF YOU SEE THIS SYMBOL

SÃO LUIS

The city of São Luís, designated as a UNESCO World Heritage site, is known as the capital of reggae and "bumbá-meu-boi." It is also the only state capital in Brazil that was not founded by the Portuguese and whose name has French origins, in reference to King Saint Louis. The colonial charm blends with a rich folkloric tradition, making the capital of Maranhão a delightful and interesting stop.

SÃO LUIS OPTIONS

VISIT OF THE HISTORIC CENTER OF SÃO LUIS

Duration : 3 hours

Located at the end of the elevation formed by the confluence of the Bacanga and Anil rivers, in the northwest of São Luís Island, São Luís do Maranhão was founded on an island by the French in 1612. The city is characterized by its rectangular urban grid of streets lined with residential buildings of varying heights, most with tiled roofs, ornamental cornices, tall and narrow decorated bays, and balconies with wrought iron or cast iron railings. They date back to the 1615 plan developed by the chief Portuguese engineer of the State of Brazil, following the conquest of the fort that had been built on the site by the French in 1612. The uniqueness of the construction techniques employed is evident in the elegance of the traditional Portuguese azulejos used for both insulation and decoration.

By classifying it as a UNESCO World Heritage site, the organization recognized the preservation efforts of the magnificent Latin American colonial architectural ensemble from the 18th and 19th centuries in São Luís. In total, more than 3,500 buildings of great historical and artistic value evoke the lifestyle of the former inhabitants of the colonial period in Brazil. Immerse yourself in history by exploring the historic center of São Luís, strolling amidst colorful and renovated colonial buildings throughout the city, and visiting art galleries and various shops.
