Brazil Sensations

## a 100% green DMC

Brazil Sensations is the first Brazilian DMC to engage itself in the carbon offset of its activities.

Besides our daily gestures to minimize our impact to our planet, Brazil Sensations decided not only to be ecological and socially sustainable, but as well to reinforce the regenerative tourism.

Following a long expertise by Agroforestry Carbon, our CO2 emissions are compensated in the form of contribution to certified projects in Brazil.

In line with the UN's Sustainable Development Goals (SDGs), our actions are concentrated in reforestation, preserving forests and its biodiversity as well as renewable energy sources whilst assuring the protection of vulnerable local populations.

These days, it has become difficult to ignore the impact that our tourism projects in Brazil can have to the environment. It is in this context that Brazil Sensations offers the possibility of a solution to every project such as to propose a carbon compensation of each and every journey to our beloved country.

## ENVIRONMENTAL IMPACT

- Recovery of degraded zones
- Increase in biological carbon sequestration
- Increase in the quality of the soil
- Source water protection
- Increase in biodiversity
- Increase in the area 's productivity

## SOCIAL IMPACT

- Diversification of cultures and productions
- Generation of a resilient economy
- Assuring food security
- Reinforcement of local productions
- Foods with higher nutritional value
- Better quality of life to farmers
